Customer Reference Number: 30342408312

I send this letter to follow up on previous similar letters from my predecessor, Dr Utpaul Bose, and myself last year. I am Mr. Avbunudje's community consultant psychiatrist. This letter is in support of Mr Avbunudje's application for student fees and maintenance aswell as DSA for the academic year 2024/25.

Mr. Avbunudje is treated by my service with a chronic Paranoid Schizophrenic illness and has chronic negative symptoms such as apathy, social isolation, lack of motivation and drive which are more resistant to treatment and these are more debilitating for Mr. Avbunudje's day to day living skills.

I am aware that Mr Abunudje has complained of pain in his knees which limits his mobility in his local community. This is compounded by his high body mass which he is working hard to reduce. Dr Bose has reported in his previous letters of support Occupational Therapy assessment detailing how Mr Avbunudje's knee pain limits him. Mr. Avbunudje also suffers Type II diabetes, hyperlipidaemia and cardiomegaly (enlarged heart).

I support him continuing with his distance learning which is beneficial for his mental health and future prospects.

Yours sincerely

Dr Paul Monks
Consultant in Community Forensic Psychiatry for Lewisham
